# the **IMPACT** of **INNOVATION** & **MAKING** on **URBAN** **AMERICA**

1. *Will growing Hartford's innovation hub, tech start-up and manufacturing community pave a pathway to economic stability?*
2. *Can our leadership break down the silos in CT by working together to build a collaborative infrastructure eradicating redundant services, educating students, supporting business owners, guiding entrepreneurs and growing commerce?*
3. *Where will the future talent pool come from?*
4. *Can we learn to share our resources to make a stronger Connecticut?*
